Nautical information

After having sailed all night in a West-North-Westerly direction, at first morning light we will begin maneuvering to drop anchor on the Western side of Grand Cayman Island. The island stretches over a surface of only 196 km² and is completely flat, situated approx. 1 nautical mile from the marina of the capital of the island. Once we are anchored, the landing and embarkation operations will begin with a land tender service. After leaving the bay, we will continue navigating for the rest of the day heading West-North-West, towards Cozumel.

Distance from George Town to Cozumel : 330 nautical miles.

Getting off the ship

Please note that upon arrival in George Town, disembarkation will not commence until we receive permission from the local authorities.

Please remember to carry a government issued photo ID/ Passport with you and to show your Cruise Card at the gangway exit and entry when you return. Minors may only go ashore if accompanied by their parents, guardian or responsible adult.

IMPORTANT INFORMATION ABOUT DISEMBARKATION PROCEDURES BY TENDER

Please note that MSC Seaside will remain at anchor today. Disembarkation will be carried out via a continuous tender boat service, which will take you from ship to shore and vice versa. To use this complimentary service, please pick up your **tender ticket** from the **Gallery** next to the **Sports Bar, deck 8 fwd**, from **6:30am**. Guests who have purchased one of our shore excursions do not need to collect a tender ticket and will be accompanied from their meeting point to the gangway by staff. Disembarkation with tender boats takes longer than ordinary disembarking procedures. Therefore, to ensure a quick and smooth disembarkation, we ask you to follow our instructions and wait comfortably in any of the lounges or on the open decks until your tender ticket is called (over the public address system). The duration of the disembarkation will also depend on weather conditions.

At approximately 10:30am, weather permitting and after being announced, you will not need the tender boat ticket to go ashore anymore.

The last tender boat from the ship to George Town will be at 11:30am.

The last tender boat from George Town to the ship will be at 12:15pm.

DISCOVER GEORGE TOWN!

Snorkel in Stingray City

The seven-mile beach is the best known of the beaches on the Cayman Islands, but also the busiest. Less crowded beaches can be found along the Northern Coast of Grand Cayman and at the South Western end of Cayman Brac. The Caymans are one of the best diving locations in the Caribbean. The traditional West Indian culture is more evident on Little Cayman and Cayman Brac. Lining George Town's harbor, is a collection of shops and offices housed in distinctive 18th Century architecture. There are buildings trimmed with wooden gingerbread, a contrast to the condominiums, satellite dishes and modern glass government administration building, also seen in the Cayman's capital. The streets of George Town come alive with the arrival of the cruise ships. There are museums and a fort to visit in George Town as well as some fine restaurants and shopping.

Interesting facts about George Town:

George Town's famous Seven Mile Beach is a long crescent of coral-sand beach extending up to the West Bay region of Grand Cayman and is the most popular and populated area for tourists on the island.
