The Officer's Daily Log

Meet Shore Excursion Manager Bonnie Ewer

Bonnie Ewer cruised with her family many times in her youth, vacations that sparked her determination to one day work at sea.

She began her career aboard cruise ships in 2006, making her home with the Princess family three years later. As a Shore Excursions Manager, she enjoys bringing once-in-a-lifetime experiences to passengers onboard.

When Bonnie is not at sea or home in Sydney, Australia, she continues to travel, and has recently spent time volunteering with The Elephant Mahout Project in Thailand.

By Shore Excursion Manager

Bonnie Ewer

Arranging adventures on shore at our many ports of call means I've had lots of opportunity to learn about the things people find most fascinating during their visits. My office near Sabatini's is an excellent place to get advice on possible sightseeing destinations and activities—and of course to arrange any shore excursions that can still be booked at a port we're visiting, or those remaining on our cruise. Whether you're looking for a vigorous hiking adventure or a comfortable motorcoach tour, I am here to help.

Memorialize the Beatles in their home city of Liverpool, located in northwest England.

Liverpool's main attraction is Albert Dock, a historical area of buildings and warehouses that has been named a UNESCO World Heritage Site. Once a working dock, today Albert Dock features the Merseyside Maritime Museum, the interactive Beatles Story Exhibition, and the Tate Liverpool, an art gallery/museum. Liverpool is also located just a drive or train ride away from epic buildings such as Chirk Castle, Conwy Castle and the 13th-century Chester Cathedral.

For information on shore excursions that may still be available in Liverpool, please stop by my office on Deck 5. I can also help you plan your day at our remaining ports of call on this voyage, Belfast, Glasgow, Inverness, Edinburgh and Le Havre. I look forward to helping make your time ashore as memorable as your experience at sea on Royal Princess®.

From the Navigator

In the morning we will follow the traffic separation schemes and proceed in the narrow buoyed channel. Once we get close to our berth we will swing the ship and proceed starboard side to the quay (Cruise Terminal). Once secured alongside we will start our port operations. In the evening with all on board we will retrace our track exiting the buoyed channel and, then we will disembark our pilot and proceed towards the appropriate traffic separation scheme and once out we will set initially NWly heading. In the night we will round the Island Of Man leaving on our starboard side, set NNEly course and proceed towards our next port of call Belfast.

Ship's Security Notice

In order to prevent unauthorized persons boarding the ship, you are required to carry your "Cruise Card" with you when going ashore. You will be asked to produce this at the gangway when you leave and return to the ship. Please ensure that you also have a Government issued picture ID with you before leaving the ship, as you may be required to show this at security checkpoints upon your return. Be aware that we have established a secure area around the vessel and our security procedures require that you must be prepared to show your cruise card when entering this area. In addition to showing it to the security staff at the gangway when leaving or boarding the ship. We kindly ask you not to accept and bring on board any parcels or packages from strangers. Before boarding the ship, you may also be asked by our Security Staff to open parcels or handbags which you are carrying. We are sure that you will appreciate that this security is in the best interest of all concerned.

5:30pm All Aboard!

Royal Princess sails for Belfast shortly thereafter

Security Screening

All passengers returning to the ship must pass through security screening. Objects containing metal such as mobile phones, cameras, binoculars, reading glass cases, large belt buckles, batteries, electrical devices, etc. will cause the walk through metal detector to alarm and delay entry onto the ship. Such items need to be placed into the trays provided before you pass through the metal detector. Passengers with, for example, surgical metal implants, large amounts of metal jewelry, metal shoe stays, etc. may need to undergo further screening, e.g. hand-held metal detector or "Pat Search."

Shore Excursions: Tour office hours: 5:00pm-7:00pm – Deck 5 Midship

Tour Staff are available in the Princess Theater, Deck 7 forward this morning and ashore outside the terminal this afternoon during tour dispatch, to check on any last minute availability for today.

Going on Tour - Please present your tour ticket at your meeting time & location. Please do not arrive ahead of the indicated time in order to avoid additional congestion and longer waiting periods. Those wishing to travel together should meet together, to be allocated space in the same transportation.

Afternoon tours, meeting directly ashore outside the terminal, often use transportation from earlier departures and therefore will only be in position for loading at the specified time.

The staging area is not sheltered, nor is seating available, and these factors in addition to the weather conditions should be carefully considered before arriving far earlier than scheduled.

Cancellations or exchanges for Greenock (Glasgow) close at 8:00pm this evening.
